

Unschooling. Unconventional income. Raising a kid and finding meaning outside the default settings.

ABOUT GIULIA

I didn't wait until I had it
figured out.

A few years ago I packed up our lives and left. No safety net, no tidy plan. Just a deep knowing that the conventional version wasn't going to work for us.

Since then: **unschooling my son**, learning through life rather than a curriculum, building income that comes with us, deep inner work and nervous system regulation. And writing honestly about what all of it actually looks like. Without the spiritual ego or fancy background. Wild Hearts Rising. The Freedom Letters. Keepers of the Wild Heart. Pieces of a life that keeps making itself up.

I'm not a guru at the top of a mountain looking back down. I'm still in it. That's the point.

The unconventional path isn't easier. But it's yours. And there is a way to make it work financially.

— GIULIA

A few things about this space

Keepers of the Wild Heart is the overarching brand for everything I do. It holds the income work, the parenting work, and the writing together.

- ✦ Several years of slow travel through Europe with my son
- ✦ Unschooling as a philosophy and a practice
- ✦ Building digital income without becoming someone else
- ✦ Writing that tells the truth about what this actually looks like

What if learning *looked like living?*

We've been unschooling through Europe for years. It's not perfect. It's not always easy. But watching my son learn through actual life has changed what I think education even is.

Keepers of the Wild Heart is about finding ways to live an intentional life without becoming outsiders on a mountain in the process. Without limiting ourselves to an identity or a group.

It is rejoining the flow of things that moves us to where we need to be, or the version of us we have to become. Takes what works, leaves the rest. Use logic but also free up your heart. Keeps things simple. And stays open enough to challenge what everyone else takes for granted.

WHAT PEOPLE SAY

Real words from real people
doing real things

"Giulia writes like she's talking directly to you. No performance, no polish. Just the actual truth of what building this kind of life looks like."

— WILD HEARTS RISING SUBSCRIBER

"The Freedom Letters completely changed how I think about income. Not trading time for money. Actually understanding how it can work differently."

— FREEDOM LETTERS READER

"Finally someone talking about unschooling who isn't pretending it's all beautiful and free. The real version, with all the mess and the magic of it. Thank you."

THE FREEDOM LETTERS

Income that can travel with you
and *doesn't reset at the end of the month.*

You've been told there's one way to earn. Work more, hustle harder, trade your hours until there are none left. I questioned that model. What I found changed everything. Seven emails. Everything I learned when I did.
